OUR HISTORY

2001

August - 2001

Wowrack starts its business with 6 servers in the founder's residence, concentrating on Dedicated Hosting and Shared Hosting Products.

Wowrack Logo 2004

2010

April - 2010

Wowrack launched www.wowrack.co.id, our first hosting company outside of United States.

Our Indonesian company provides Web Hosting, Dedicated Server and Cloud Computing Platform for the Indonesian Market.

July - 2010

Wowrack completed its internal network upgrade to 10gbps backbone infrastructure.

August - 2010

Wowrack officially opens its flagship datacenter in Seattle, operating under the brand name of www.coloinseattle.com.

September - 2010

Wowrack officially announced the launch of its sister company www.onvps.com, a cloud computing infrastructure that provides virtualized private server (VPS) solution.

September - 2001

Wowrack acquires Spry.com Dedicated Hosting Business. We welcome all Spry Customers.

Wowrack Logo 2001

2003

September - 2003

Wowrack outgrew our first office space and needed to quickly grow our network by moving into the Westin Building in Downtown Seattle, the largest carrier hotel in the west coast USA.

September - 2003

Wowrack starts offering Colocation Hosting services.

Wowrack Logo 2009

2013

September - 2013

Wowrack launched its wowrackcloud compute engine in Beta. We are now able to provide scalable public cloud computing infrastructure.

September - 2013

Wowrack expanded its coloinseattle.com datacenter in Seattle with additional 2000sq feet in the Phase2 buildout. We added capacity on our critical datacenter infrastructure including UPS, CRAH units, and Chiller capacity.
