

GLOBAL CLOUD SOLUTIONS

Regardless if you're looking for Infrastructure as a Service (IaaS) solutions or looking to plan for Disaster Recovery (DRaaS) needs, private cloud, or just a single server, Wowrack is able to assist and scale with you on a global basis.

With 7 global locations, we are able to provide you a range of services in various locations under one roof.

SERVICES WE OFFER

COLOCATION

Own your own gear?
Our colocation service allows you to rent space, power and bandwidth out of our world-class highly redundant data centers worldwide [\(See 'Global Map of Locations' below\)](#)

CORPORATE CLOUD

Get rid of the headaches with on-prem server closets/data centers. We offer comprehensive services including Active Directory, Exchange, SQL, SharePoint, Dynamics CRM, Lync (now Skype Business) and more!

PRIVATE CLOUD

Our single tenant solutions are custom tailored to your needs, in which we consult with you, design and deploy your custom environment within your budget and on time!

PUBLIC CLOUD

Our multi-tenant platform allows you to spin up virtual instances on-demand at competitive price points.

HYBRID CLOUD

This is where we shine.
Our hybrid cloud solution allows you to have your private cloud and public cloud integrated into one. In addition, you can also bring in your own equipment to tie into your hybrid cloud as part of our colocation service. Whether we rent the hardware to you or it is owned by you, Wowrack will fully manage the infrastructure in either scenario. The possibilities are endless!
