

# WOWRACK

## CORPORATE CLOUD

YOUR ENTIRE SOLUTION

Many small to medium sized businesses face the high-cost that comes with the constant changing demands of IT infrastructure. Running and maintaining "On-Prem" data centers, hardware procurement, software licensing, and handling workloads in house, can lead to headaches, cutting corners, and concern of overall data integrity when it comes to security.

Wowrack's Enterprise Corporate Cloud is a private bare metal solution specifically designed to relieve the stress that IT Managers face daily; by taking your in house corporate IT environment off premise into a redundant and highly compliant data center location. Allow our team at Wowrack to migrate, manage, and support your very own Corporate Cloud today!

### WHY WOWRACK

- Always stay ahead of the curve with the latest in technologies.
- Lower cost solution vs AWS, Softlayer, Rackspace.
- Increase your internal IT Team's productivity and ROI.
- Take the headache away of having to keep up with weekly updates and managing your own infrastructure.
- 100% Network Uptime SLA.
- 100% Data Center Uptime SLA.
- Virtual Desktop infrastructure (VDI) increases security by moving workstations to a centralized managed server environment fully maintained by Wowrack Support.
- Utilize our staff's expertise in Microsoft application platforms, voice and security services.
- Our on-site support staff of Tier 3 engineers are available 24/7/365 to assist with cloud deployment and management.

## CORPORATE CLOUD VS OFFICE 365

COST

For companies with more than 50 users, Office 365 may become more expensive per user.

SECURITY

- Office 365 is hosted in an IaaS Public Cloud environment.
- Wowrack's bare metal offering provides better security and control of customization of your environment.

# CORPORATE CLOUD

## BENEFITS

**WOWRACK'S  
CORPORATE CLOUD**  
*Relieves the stress that  
IT Managers face daily  
using the  
Latest Technologies  
to create an  
entire solution*

### Create a Virtual Desktop Infrastructure (VDI)

- Lessens liability risks by removing data from individual workstations.
- Lowers costs by taking away the need to update several individual desktop stations.
- All software and applications are updated at the server level in one update.
- Allows you to create virtual users anywhere in the world within minutes, with access to their desktop on any computer or mobile device.

### Save Costs on Microsoft Licensing with Private Hosted Exchange

- Offers an "Enterprise Level" email solution, easy to manage in a single-tenant private environment.
- Increases productivity and compute workloads, with more flexibility and user control.
- Saves costs on Microsoft Licensing by offering monthly *pay-per-user* fees.
- Maintains fully managed Active Directory and Spam filtering.
- Has information to scale and be more flexible.
- Add new email accounts and only pay for the extra licensing fees.

### Collaborate Company-Wide with Wowrack Managed Skype Business

- Schedule Skype Business online meetings to conduct online presentations and video conferencing in real-time.
- Instant message with Skype Business users and Windows Live contacts.
- Use on any computer or mobile device, on any operating system.
- Share files and documents with the opportunity to archive and search.
