Bringing the Cloud to your Business Tenants

Your medium-to-large business tenants have IT needs, but probably not IT expertise.

⊗ Forget about maintaining servers

We'll do it for them. Store data in our data center with a dedicated, always-on connection. **Why?**

- Backup critical data and apps with blazing speed
- Keep their servers always-on, cool, secure and backed up
- Apply patches to keep their servers up-to-date and secure
- Monitor their servers to ensure they don't crash *(say, a hard drive fills up)*
- Replace a faulty server quickly. We've got lots in stock.
- Support them, 24/7/365

⊗ As your tenant's business grows

... so can we.

We'll scale any business solution up as needed. Quickly and Easily.

FREE CIO CONSULTING AND TECH SUPPORT FOR YOUR TENANTS

Wowrack will call or visit their offices once a month to help with their IT needs (plus 1 hour of FREE, initial consulting on sign up).

And for you

We'll pay up to \$1500 a month to bring our service into your building

You heard that right. Check with us for details.

* Must sign up before December 31st, 2017.

Free IT support for YOUR building office

- Are you protected against the malware of the day?
- Are your backups tested and working?
- Are you using current technologies to run your office?

Not sure about this and more? We'll help.
